

# Resume Wizard

*Your Browser's Magic Touch for Autofilling Job Applications*

Erin Mishark, MS in HSE

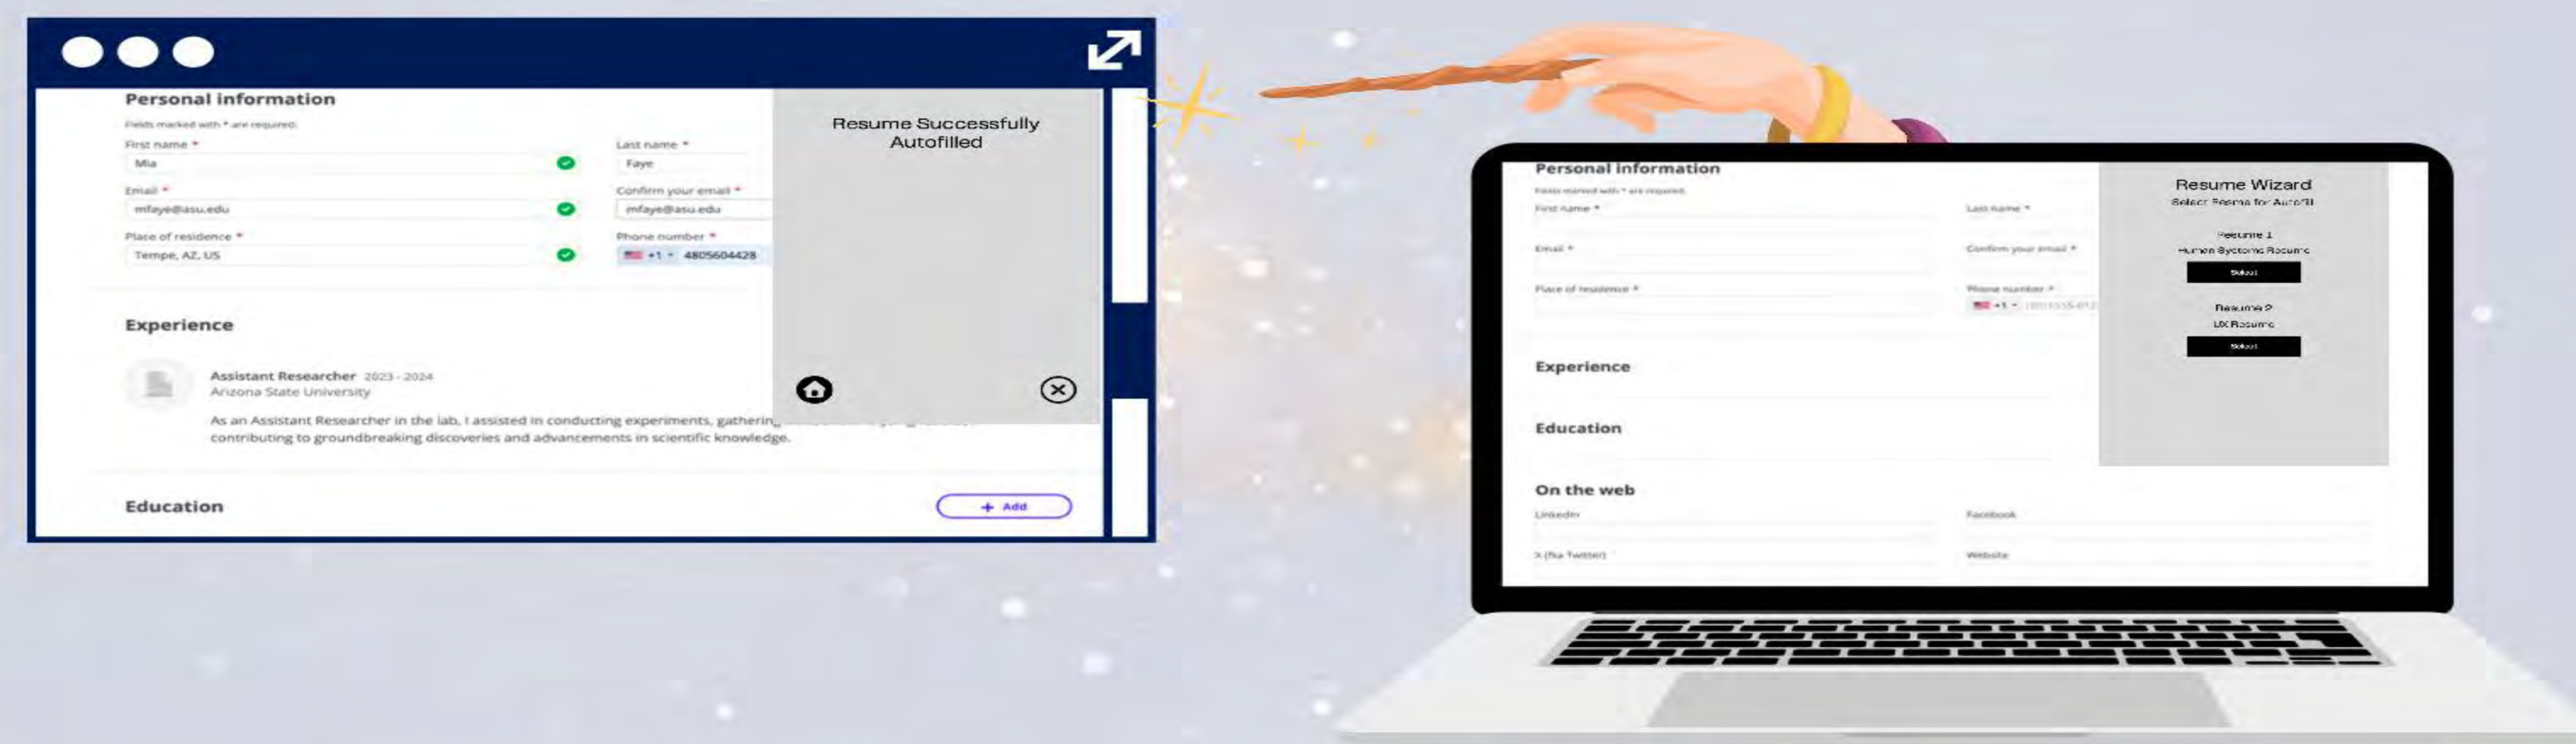

## Introduction

Resume Wizard is a user-friendly browser extension designed for job seekers, enabling effortless autofill of your resume on external job sites, simplifying the job application process.

## Features

- **Autofill Resumes on External Sites:** Resume Wizard automatically fills in your resume information on external websites, eliminating the need for manual data entry.
- **Seamless Resume Upload:** With Resume Wizard, you can upload your resume to external sites effortlessly, without the hassle of reformatting.
- **Multiple Resume Support:** Users have the option to upload and manage multiple resumes, enabling them to apply to different job opportunities with ease.
- **Improved Accuracy:** Unlike standard autofill features, Resume Wizard ensures that the information is accurately transferred, avoiding common errors.

## Visual

## Research

Research suggests that graduate students at Arizona State University desire a convenient and time-saving alternative for lengthy and user-unfriendly job application processes. Specifically, external job sites present significant challenges including uploading resume

“Application processes are also VERY long and not user friendly”

## Conclusion

This research served in understanding the needs and challenges faced by students upon entering the job market. Identifying these pain points help aid in the development of Resume Wizard, providing valuable insights into areas where improvement is needed to enhance the job search experience.
